

August, 2013

Welcome to our new initiative of repurposing school supplies, equipment, and furniture.

The purpose of this webpage is to alert our staff and teachers of supplies and or equipment that can be acquired for use in your classroom or building.

The following are items that are no longer needed by a school within the district and or a donation from a business or individual. I ask that you alert you fellow staff in your building when you have functional equipment or supplies that you no longer need. Please alert your head custodian of surplus furniture and the office secretary of surplus supplies.

My office sells items that none of the schools can use to generate funds for the school district.

Be sure to check back as our site will be updated especially at the start and end of the school year.

Bay Village Schools is a leader in efficiency and we take pride in being good stewards of taxpayer dollars !

Sincerely,

Daryl Stumph, Assistant Superintendant

Additional items available (not pictured):

1 – 4' round tables

6 – 3' square tables
